Join the program committee of EquaSion's "A Mighty Stream" Interfaith Racial Justice Initiative for the first webinar in a four-part series examining Faith Perspectives on Racial Justice. This panel aims to explore our spiritual understanding of race, racism, and racial justice, by applying scriptures, tenets, practices, contemporary writings and/or beliefs to discover the ways we are called individually or collectively to enter racial justice work. Panelists will consider how to enter into truly transformational relationships across difference as an active demonstration of love and justice.
